A relaxation from Part M is sought to relocate the accessible entrance into my house from the front door to the side entrance. 1. The side entrance will be the “de facto” main entrance into the house as is common rural practice; 2. The side entrance is clearly visible from the main approach route to the house; 3. The house is in the countryside, on a site large enough to enable a vehicle beside the house thus minimising the distance to be travelled; 4. The route inside the house is accessible to the main living room, and a WC meeting the requirements of Part M. 5. Furthermore, the house is timber-frame, and I wish to minimise obstruction of the lower wall vents.	Dwelling House at, Ennisnag Lane, Ennisnag, Co Kilkenny
