Advice for Communities on how to make Projects more Climate Friendly

The Climate Action Office has produced a simple guide for communities to help make local community projects more climate and environment friendly. See pages 12-13 of the new Kilkenny County Council Grants Booklet.

ENVIRONMENTAL AWARENESS

Agriculture Map Alerter

A new Agricultural Map Alerter has been set up on Kilkenny County Council Alerts portal. The purpose of the alert system is to notify registered farmers. An active campaign to encourage registrations is currently being undertaken.

The map of Kilkenny is broken down into Townlands and Electoral Divisions (DEDs) with run off times for the spreading of slurry broken into two categories of 48 hours or 96 hours. If a Level Yellow/Orange/Red rainfall warning is issued for County Kilkenny then it will trigger an SMS message to agricultural alert subscribers, an SMS will go out to the farmer highlighting the pollution impact and notifying them not to spread slurry for a period of 48 hours or 96 hours.

A basic SMS template is used with a similar image to the one in Wexford County Council which breaks down the areas.

The Agriculture Alert can be accessed via the following link-
<https://alerts.kilkennycoco.ie/>

Green Schools Programme

The Environmental Awareness Officer [EAO] continues to support 92 schools as part of the An Taisce Green Schools Programme to renew or attain a flag. Green Schools is an International Environmental Education Programme, offering a well-defined, controllable way for schools to take environmental issues into the curriculum and apply them to the day-to-day running of the school.

Green schools is a holistic, long-term programme and has a two-year cycle in relation to preparation, assessment and attainment of a particular flag.

The EAO is continuing to assist schools around the County to renew their membership as part of the Green Schools Programme under their respective themes:

- Litter and Waste,
- Energy,
- Water
- Travel,
- Biodiversity
- Global Citizenship.

The EAO will be undertaking assessments of Green Schools over the next 3 months. Deadline for the applications for School Flags is 28th March, 2024.

The Picker Pals Programme has been designed to deliver deep and sustained behavioural change for the primary participants while also affecting peers, family and the broader community. We believe no other Environmental Stewardship Programme can provide the same depth of benefits.

Behavioural change is supported by six key pillars:

1. Multimodal Learning
2. Real World, Action-based Learning
3. Boosting Engagement through Responsibility
4. Fun - The Ultimate Motivator!
5. Embedding Behaviour through Personalised Storytelling
6. Community and the Positive Feedback Loop.

In the 2024-25 school year, 32 classrooms from 27 schools are taking part.

The nature of these complaints included littering, illegal dumping, burning of waste and abandoned cars. The majority continue to be related to illegal dumping. Whilst every effort is made to bring unacceptable environmental practice into compliance, Environment Enforcement staff continue to manage significant enforcement cases progressing through prosecution cases.

Noise

The final Noise Action Plan was completed prior to the Christmas Break and will be published on our website shortly. The Plan and reporting were submitted to the EPA in December. Once the final Plan is made the report will be updated with the EPA for their submission to the EU on 18th January, 2025.

Storm Éowyn

In advance of the Status Red Wind Warning across the entire Country, which came into effect in the early hours of Friday 24th January, 2025, in the interest of public safety a number of local authority amenities were closed to the public. These amenities included the Kilkenny Countryside Park, Silaire Woods and Woodstock Gardens and Arboretum.

Unfortunately, a number of trees were damaged and or lost as a consequence of the storm in both Silaire Wood and Woodstock Gardens, this was significant particularly in Woodstock given the number of important trees already lost during Storm Darragh in December last.

The Parks Department, once restrictions had lifted, undertook a full assessment of the damage and the amenities were reopened to the public once it was considered safe to do so. Clean up works were completed in Silaire Woods late last month and a comprehensive clean-up will take place in Woodstock Gardens in March, when ground conditions are more favourable for the removal of large trees.

Tree Surgery Works and Hedge Cutting

Due to recent storms our Tree Surgery Programme was delayed, however, intervention works were completed recently in Paulstown, Callan, and Fiddown. Additionally, hedgerow maintenance was also completed along the opened section of the South East Greenway along with a significant reduction to the beech hedge at Newpark Soccer Pitch. Pruning of overgrown trees around the viewing platform on Windgap Hill in the City was also completed opening up, once again, fantastic views of Kilkenny Castle.

FIRE SERVICES

Fire Brigade Operations

The existence of a professional Fire & Rescue Service is fundamental to public and personal safety. The Fire Service plays a crucial role in making our communities safer, whether it be preventing and protecting people from fire and other risks or responding swiftly and effectively to the incidents and emergencies that occur 24 hrs per day/7 days per week/365 days per year. These incidents included a number of road traffic collisions, house fires, ambulance assists, public road hazards, car fires, chimney fires and automatic fire alarm activations.

All Fire Brigades were put on standby in their Fire Stations during the red weather warning on the 24th January, 2025 during Storm Eowyn. They attended fallen Trees in conjunction with the Area Offices, Automatic Fire Alarms, structural damage to properties and making numerous scenes safe. Senior Fire Officers were also part of the Severe Weather Assessment Team (SWAT) prior to the Storm and were part of Kilkenny County Council's Crisis Management Team (CMT) and the Local Coordination Group (LCG) in the response. See below infographics on all incidents that the Fire Service attended during 2024.

Recruitment of Retained Firefighters

Our second recruitment campaign is well underway to recruit Fire Fighters in Castlecomer, Freshford, Urlingford, Thomastown and Graiguenamanagh. Interviews have been carried out. All new recruits will undergo extensive initial training to equip them with the skills to be a Retained Firefighter. As well as responding to emergency calls and undertaking community fire safety initiatives, Retained Firefighters attend weekly training nights to maintain competency levels and undertake routine checks on their equipment.

Retained Firefighters are on call to respond to a range of emergencies. Many Retained Firefighters have other full or part-time jobs but when the call comes they are ready to drop whatever they are doing and become part of a team, ready to face any emergency. Although part-time, Retained Firefighters are fully trained and capable of saving life and property.

Training

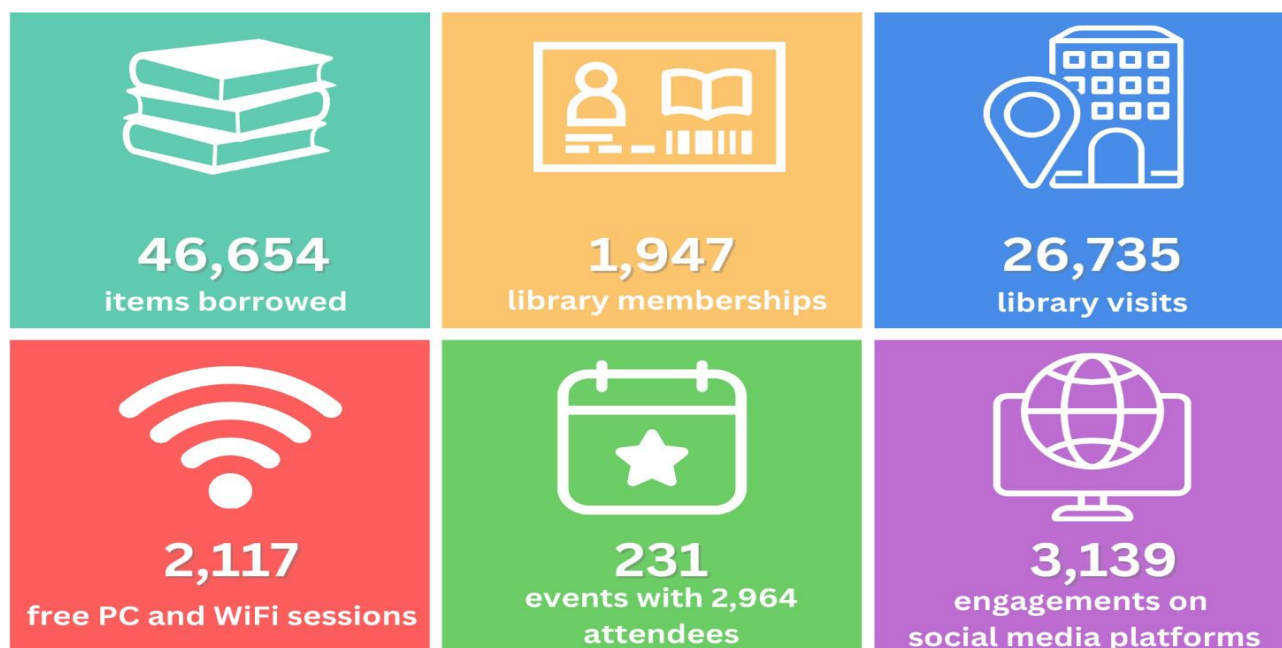

Kilkenny County Council's Fire and Rescue Service are obliged under the Fire Services Acts 1981 and 2003 and the Safety, Health and Welfare at Work Act 2005 to ensure that our Fire Fighters and Officers are adequately trained and competent to deal with tasks and varying roles they may encounter in the performance of their duties.

All personnel responding to Fire and Rescue Service incidents require a minimum level of training to meet core requirements. In addition, many personnel also require further training for specialist or supervisory roles. Furthermore, a number of Fire and Rescue Service personnel have completed Instructor courses in order that they in turn can instruct and direct delivery of training sessions/courses. Personnel also require appropriate refresher training in all of the above throughout their careers, generally delivered either through on-station training or through specific refresher courses.

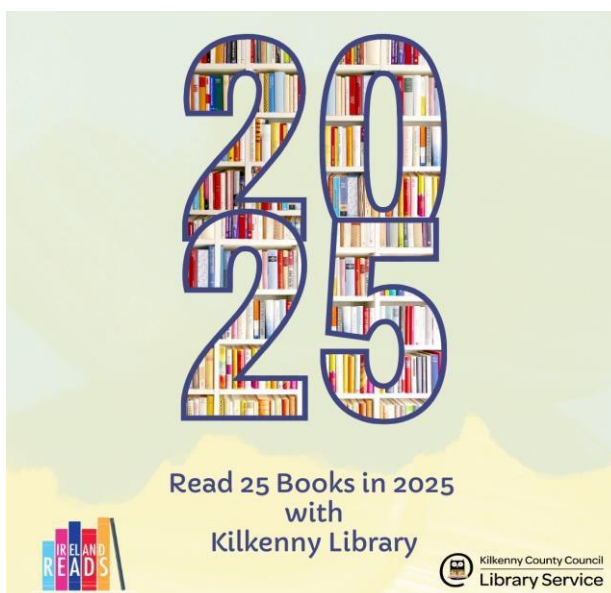

A number of Fire Fighters and instructors attended a Compartment Fire Behaviour Training Course in Hackettstown Fire Training Centre. The aim of this 5 day course is to provide the learners (*trainee Firefighters*), who have completed the 10 day Using Breathing Apparatus (*Initial Wearer*) course, with the skills, knowledge and competency necessary to wear Breathing Apparatus in compartment fires. This course provides practical training on the knowledge and skills that are required to enable recruit Firefighters to safely work as BA wearers at operational incidents, within the incident command structure and BA procedural norms.
