He advised that extensive public consultation has taken place. Ten Public Submissions were received and the issues raised have been addressed in the Report.

Presentation on the proposed Plan was given to the Kilkenny City Municipal District Elected Members and the full Plenary Council earlier this year.

The Acting Chief Executive recommends that Kilkenny County Council proceeds with the proposed development in accordance with the plans made available for public inspection and taking into account the commitments and recommendations as outlined in his report.

Contributions were received from Cllrs. John Coonan, Andrew McGuinness, Eugene McGuinness and Martin Brett. Contributions were received from Cllrs. Pat Fitzpatrick, Michael McCarthy, Mary Hilda Cavanagh, Deirdre Cullen, Joe Lyons, Michael Doyle, Tomás Breathnach, Maria Dollard, Peter Cleere, Pat Dunphy, Fidelis Doherty, Denis Hynes, David Fitzgerald & Eugene McGuinness.

Members were frustrated with the delay in progressing the six schemes. They asked for the projects to be expediated as a lot of properties are affected and people are concerned for their safety and protecting their property.

Specific issues were raised as follows:

- Freshford – timescale for Scheme, properties being flooded on numerous occasions.
- Thomastown – taking so long to progress scheme, subsidence at the Quay Wall.
- Inistioge – no progress since announcement of funding.
- Callan – Kings River, area flooded, 3 times in 2022, complimented staff for their immediate response to assist people flooded.
- Seek clarification on start dates for schemes, more support needed from national Government.
- Cleaning Rivers – who is responsible. What is role of Inland Fisheries? Problems with fish passes and a lot of growth of algae on River bed.
- Rationale for designation of schemes into the 2 Lots.
- Issue with storm water/sewerage overflow in Michael Street, Kilkenny.
- River Management Plan required.
- Survey locations at risk of flooding.
- Review of N77 Road and Dinan Bridge.

Mr. Butler and Mr. Kavanagh responded to the issues raised. Members were advised that planning a Flood Relief Scheme is a long process. Consultants need to be approved. Various environmental and hydrogeology reports have to be commissioned and data collected to plan a scheme to protect all properties. Public consultation needs to be undertaken. Planning approval is required from An Bord Pleanála. Members were asked for their patience in dealing with all aspects of planning for a scheme before any works are undertaken.

Mr. Kavanagh advised that minor flood works are undertaken where possible. Site investigation is being carried out on the Quay Wall in Thomastown. Funding under Climate Adaption is very welcome and works proceed as soon as funding is allocated.

Cllr. Pat Fitzpatrick thanked all for their input into this item. He stated that flooding of properties is a huge worry for the owners. He urged the Executive to prioritise schemes and seek early resolution.

41 (22) Cork County Council

"Cork County Council calls on the EPA to put in place a full suite of end of waste criteria to support the circular economy and climate action. These criteria must allow for an efficient means to move materials out of the waste streams in all areas including:

- construction and demolition waste materials such as concrete, topsoil, concrete products such as blocks and kerbs, timber, etc to reduce the demand for virgin materials and it must allow for materials from smaller projects coming to locations such as civic amenity sites.
- re-use schemes such as paint, bicycles, etc coming to locations such as civic amenity sites.
- Items such as furniture, toys, tools, equipment and schoolbooks coming to locations such as civic amenity sites to extend their useful life or for parts to extend the life of other items.

Members agreed that a copy of this letter would be circulated to the EPA and the Southern Regional Assembly".

42 (22) Wicklow County Council

"That Wicklow County Council asks the Government to recognise the European Commission's confirmation that the Government could exceptionally address the case of C.J. Gaffney and the MV Mary Kate through the European Maritime Fisheries Fund (EMFF)".

43 (22) Sligo County Council

"In light of the huge staffing issues our health service is now facing that Sligo County Council calls on the Minister for Health to undertake a review of the numbers of doctors and nurses being trained annually with a view of doubling capacity within the system as is required.

Furthermore, that the Minister for Health instructs the Department of Health and the Health Service Executive to implement a workforce strategy for the retention of nurses and doctors to stay working within our health service instead of paying millions for recruitment campaigns overseas.

That this Motion be relayed to the Minister for Health, the Taoiseach, the Tanaiste and every Local Authority."

44 (22) Monaghan County Council

That this Council call on the Ministers for Environment and Finance to initiate a scheme, similar to the “Fair Deal” Scheme, whereby pensioners and retired people’s homes would have solar panels fitted to their homes, thereby greatly reducing their energy costs.”

45 (22) Monaghan County Council

That this Council call on the Government to defer the introduction of a “concrete/block levy” for the foreseeable future.

Cllr. Tomás Breathnach thanked the Cathaoirleach, Members and staff for their condolences and kind thoughts on the death of his sister Patty. He appreciated the messages received and support to all his family at this difficult time.
