2. (b) **Pleanail - Planning**

(i) ***Nuashonrú ar Athruithe ar Phlean Forbartha Cathrach & Contae*** **Update on Variations to City & County Development Plan**

Ms. Arlene O'Connor provided an update on the current Variation No. 2 to the Kilkenny City & County Development Plan which is currently on public display. She explained that the variation relates to primarily Chapter 4 on Core Strategy, which includes a table outlining the hierarchy of settlements as follows: Kilkenny City, followed by Waterford Metropolitan Area, then the County Towns. Below these presently in the table are two further categories of settlements, namely smaller towns and villages, and then Rural Nodes.

The proposal is for a text change to:

- change the terms 'Rural Towns and Villages', and 'Smaller towns and villages', to 'Small towns and villages'
- to remove the term 'Rural Node', and
- to include villages previously designated as 'Rural Nodes' as 'Small towns and villages without settlement boundaries'.

In total 25 of the 36 currently designated Rural Nodes will be reclassified into the "Small Towns and Villages" category, but these settlements will not have a settlement boundary.

Ms. O'Connor explained that this is purely a textual change associated with settlement categorisation, and this change will have no implications on planning policy or application assessment going forward, it is merely updating the Plan to reflect this change in settlement categories.

She explained that at present the variation to City & County Development Plan is on public display, available online on consult.kilkenny.ie and available for viewing in the Planning Office. There is a 4 weeks submission period and the next stage will be to present a Chief Executive's Report at the October Meeting, recommending adopting of this variation.

Contributions were received from Cllrs. Pat Dunphy, David Fitzgerald, Mary Hilda Cavanagh and Maria Dollard as follows:

- Sought clarification on getting rural housing without being from area.
- Welcomed the Variation which reestablishes the villages as they had been downgraded to Rural Nodes.
- A significant concern from the community is that not listing these areas as villages could hinder their development in terms of having a Local Area Plan which would leave them unprotected against proposals for large windfarms.
- Villages should have certain rights and should not be allowed to put a windfarm near a village or town.

Ms. Arlene O'Connor responded as follows:

- The planning policy remains unchanged with no implications as a result of this variation.

- Smaller settlements are being reclassified into the “small towns and villages” category.
- There are no changes to the Wider Rural Area, with housing being assessed in the same manner as before.
- Settlements will be prioritised based on the availability of public water and waste water capacity as well as other amenities.
- Future considerations include developing Cluster Housing Guidelines, which will be a tool to help guide housing in smaller settlements.
- in terms of windfarms and Kilmanagh, a settlement being described as a Village could carry more strength than it being a Rural Node.

Cathaoirleach, Cllr. Michael McCarthy welcomed Martin Kelly, a friend of John Brennan’s, to the meeting.

(c) **Bóithre- Roads**

- (i) **Bóithre Áitiúla - Local Roads**

Mr. Seamus Kavanagh, Senior Engineer gave a PowerPoint Presentation on the types of Local Tertiary Roads.

In his Presentation he gave an overview on the following:

- Local Improvement Scheme [LIS] refers to Private Roads/Lanes.
- Community Involvement Scheme [CIS] refers to Public Roads/Lanes.
- LIS is funded by the Department of Rural and Community Development.
 - Objective is to fund the construction or improvement of non-public roads.
 - Land which is which is owned or occupied by different persons, one of which must be engaged in separate agricultural activities.
 - For harvesting purposes (including turf or seaweed) for two or more persons
 - Number of Schemes delivered and allocations.
 - Local contribution is set at 10% for eligible roads with up to and including 5 beneficiaries and is set at 15% for those with 6 or more beneficiaries.
 - Maximum amount required to contribute is capped at €1,200.
- CIS is funded by the Department of Transport.
 - It is a joint venture approach between the Council and local communities, for the purpose of carrying out maintenance and improvement works on suitable Local Roads.
 - 514km of Local Tertiary Roads in County Kilkenny.
 - Number of Schemes delivered and allocations.
 - CIS is based on a minimum community contribution of either 10% or 20%.

Contributions received from Cllrs. John Brennan, Pat Fitzpatrick, Sean Ó hArgáin, Mary Hilda Cavanagh, Tomás Breathnach, Deirdre Cullen, Michael Doyle, Peter Cleere, Eugene McGuinness, Pat Dunphy, Fidelis Doherty and Ger Frisby.

- Department need to reconsider changes to LIS criteria as it is making it difficult for many to apply for the scheme i.e. changes to herd numbers, hectare of land.
- Suggested that the Council allocate funds to complete the necessary work.
- Urgent need for lanes in City to be looked at - confusion in relation to ownership and who is responsible for maintaining.
- Costs/strain on budgets to maintain public lanes – length of time on waiting list.
- Acknowledged staff of the Council, Roads Staff and Engineers for incredible work carried out in getting these schemes over the line on time.
- can money be diverted and if so at what stage does this happen.

Propose writing to the Department to:

- urge them to review and adequately fund the Schemes to ensure the completion of work.
- ask that we would have autonomy on how money is spent.
- contribution that some people pay is far greater than €1,200 – ask to change this requirement and cap it at €1,200 for all.

Mr. Seamus Kavanagh and Mr. Tim Butler responded to the Members issues.

- Minister Humphreys has recognised that there is an anomaly and will be liaising with Local Authority Officials to see how it is being implemented.
- Concentrate on repairing a number of private lanes in City under the Active Travel Scheme.
- LIS Schemes are audited.
- Explained that Minister Humphreys looks after the LIS Schemes and Minister for Transport deals with CIR Schemes.
- Laneway Scheme in place. Members responsibility under Roadworks Programme to prioritise where money is spent.
- Laneways with a lot of through traffic and connections are assessed on their own merits in order to qualify for funding under Active Travel.
