# Roadworks Scheme 2024

Tim Butler
Director of Services

#### **ROADWORKS SCHEME 2024**

#### **CONTENTS**

- Report by Director of Services
- Roadworks Scheme 2024 Appendices

#### **DIRECTOR OF SERVICES**

#### **REPORT ON**

#### **ROADWORKS SCHEME, 2024**

#### 1. INTRODUCTION

- 1.1. The 2024 Roadworks Scheme was prepared to make best use of resources and maximise the number of projects that will be completed to protect and improve infrastructure and improve safety and mobility in County Kilkenny. The key targets are:
  - the need to protect and maintain existing road assets;
  - the continuous need for improvements to bring the road network up to an acceptable standard;
  - a requirement for all roads projects to be identified, managed and reported through the DTTAS Pavement Management System;
  - an increasing inventory of public lights, and a commitment to upgrade the lights to LED.
  - compliance criteria set out in the Transport Infrastructure Ireland and Department of Transport Memorandum on Roads Grants:
  - the requirement to maintain roadside drainage systems to a satisfactory operational standard;
  - the increasing length of the public road network throughout County Kilkenny as estates are taken in charge etc.;
  - Improve road safety and mobility for everyone.

# **Funding Streams**

#### Transport Infrastructure Ireland (TII)

2024 Transport Infrastructure Ireland Grants for National Road Improvement and Maintenance total €12,360,426. This includes for pavement improvement on the N76 and N77 to be undertaken this year:

There are also 4 no schemes on National Roads that received TII funding to be further advanced in 2024. The schemes are:

- N24 Tower Road
- N24 Carrick Road Improvement
- N76 Callan Bypass (Pavement & Active Travel)
- N77 Ballyragget Village to Ballynaslee Road Improvement

### 2024 Department of Transport

2024 Department of Transport grants for the Non-National Road Network total €17,795,040 as compared to €17,767,860 in 2023.

The key target areas for improvement are Restoration Improvement and Restoration Maintenance. They make up 68% of the total allocation.

- Roads provides information on and defines the conditions governing the payment of grants to local authorities in respect of improvement and maintenance works on roads. It also includes conditions on the chargeability against state grants of expenditure incurred on such works. The percentage is based on the direct labour payments and therefore no overheads may be apportioned against design, consultant or contractor payments, holiday pay, sick pay or site allowances agreed nationally. The wages of the outdoor staff on some schemes will be levied by 38.5% towards the cost of EL, PL and Holiday Pay and will have to be paid by Kilkenny County Council own resources.
- 1.3 Due to ongoing requirements in relation to best practice in Health, Safety and Welfare at Work and Staff Training, a provision of €103,500 has been allocated for these purposes.
- 1.4 A Reserve Fund of €150,000 has been allocated for unforeseen circumstances including severe weather and unforeseen costs associated with the management of the road network throughout County Kilkenny.

# 2.0 ROAD SCHEDULE, MAPROAD, PAVEMENT MANAGEMENT SYSTEM

2.1 The public road network for County Kilkenny is summarised in

Table 1 - 2024

Road Category	km
Motorway	69.46
National Primary	60.61
National Secondary	66.98
Regional	426.53
Local	2657.96
Total Network	3281.54

Table 2 Road category by Municipal District Area - 2024

	Municipal Districts						
Road Classification	Castlecomer MD	Callan Thomastown MD	Kilkenny MD	Piltown MD	Totals		
	(km) (%)	(km) (%)	(km) (%)	(km) (%)	(km) (%)		
Madamus	20.48	27.61	0	21.37	69.46

Totals	35.02%	34.65%	6.43%	23.89%	100.00%		

#### 2.2 Map Road/Pavement Management System

From 2015 all DTTAS grant allocations are governed by a Pavement Surface Evaluation and Rating System. This provides for a consistent approach to the evaluation of pavement condition across the state. In turn the pavement evaluation and rating system enables the prioritisation of schemes for inclusion in works programmes etc.

Such evaluation and rating systems form part of an overall road management system that will include for maintenance of the road schedule, project details, bridge management data, road opening licences and administration of state grants associated with the maintenance and improvement of the road asset.

In terms of the Pavement Surface Evaluation and Rating System, below is a brief description on how we rate the roads.

Ratings can be described as follows;

#### Rating 1 – 4

 Road Conditions are ranging from poor to very poor and road needs reconstruction (circa €35 to €44 per sq m).

#### Rating 5 - 6

 Road Conditions reasonable with only localised repairs and routine maintenance required (up to €7.50 per sq m).

#### Rating 7-10

 Road Conditions good to excellent with only routine maintenance required.

# 3. IMPROVEMENT GRANTS ON NATIONAL ROADS

# 3.1 Trends:-

The following Table compares the 2024 allocations for improvement works on national roads in County Kilkenny with those in previous years: -

**Table 3 National Roads Funding Trends:** 

Year	Maintenance Grants	Major Improvements	Total Allocation
2000	€1,131,570	€14,478,000	€15,609,570
2001	€1,682,750	€17,155,160	€18,837,910
2002	€1,539,000	€9,527,066	€11,066,066
2003	€1,975,200	€13,567,770	€15,542,970
2004	€1,767,300	€11,160,750	€12,928,050
2005	€1,811,832	€26,145,000	€27,956,832
2006	€1,841,916	€87,290,000	€89,131,916
2007	€1,800,784	€173,538,784	€175,338,784
2008	€1,899,871	€242,298,000	€244,197,871
2009	€1,468,046	€199,688,000	€201,156,046
2010	€1,409,700	€79,424,461	€80,834,151
2011	€1,143,066	€12,453,673	€13,596,739
2012	€952,652	€6,857,800	€7,810,452
2013	€773,695	€914,755	€1,688,450
2014	€636,391	€924,600	€1,560,991
2015	€641,946	€6,129,197	€6,771,143
2016	€654,873	€5,634,197	€6,289,070
2017	€533,852	€6,459,200	€6,993,052
2018	€593,852	€5,310,000	€5,930,332
2019	€624,087	€5,705,000	€6,329,087
2020	€636,503	€10,790,000	€11,426,503
2021	€636,503	€7,635,000	€8,271,503
2022	€616,634	€6,231,763	€6,848,397
2023	€616,633	€11,368,650	€11,995,283
2024	€573,426	€11,287,000	€11,860,426
		Total Over Period	€999,961,594

Maintenance allocations provide for the day to day maintenance requirements of the National Road Network throughout County Kilkenny. The allocations fund the provision of winter maintenance (salting), the costs associated with traffic route lighting and normal repairs to the road surface, drainage infrastructure, safety barriers and signage.

National routes throughout County Kilkenny are the subject of monthly maintenance inspections whereby maintenance requirements are identified and prioritised by way of a new NRA Geo Application.

# 3.4 Motorway Maintenance

Members are advised that since June 2013, the provision of all road maintenance services on the motorway network (including winter maintenance) is provided by contractors Egis Lagan Services in County Kilkenny subject to the provisions of a Motorway Maintenance and Renewals Contract.

# 4.0 GRANTS FOR NON-NATIONAL ROADS

### 4.1 Trends

The following Table compares the 2024 allocations for maintenance and improvement works on non-national roads in County Kilkenny with those in previous years: -

Table 4: Non National Road Allocations 2000-2024

	Own		Total
Year	Resources	DTTS Allocation	Allocation
2000	€ 1,690,650	€ 7,970,145	€ 9,660,795
2001	€ 1,689,900	€ 9,183,380	€ 10,873,280
2002	€ 1,816,868	€ 10,535,698	€ 12,352,566
2003	€ 2,030,000	€ 10,404,000	€ 12,434,000
2004	€ 2,330,000	€ 10,459,000	€ 12,789,000
2005	€ 2,415,000	€ 10,864,500	€ 13,279,500
2006	€ 2,615,000	€ 12,920,500	€ 15,535,500
2007	€ 2,853,000	€ 14,476,900	€ 17,291,900
2008	€ 2,714,900	€ 14,775,764	€ 17,590,664
2009	€2,303,100	€11,373,699	€13,676,799
2010	€1,836,000	€10,490,699	€12,326,699
2011	€1,721,000	€ 9,871,745	€11,592,745
2012	€1,590,600	€9,898,343	€11,488,943
2013	€1,400,000	€9,958,007	€11,358,007
2014	€1,613,000	€9,238,000	€10,851,000
2015	€1,956,099	€8,876,788	€10,832,887
2016	€1,983,000	€8,931,601	€10,914,601
2017	€1,700,000	€9,724,107	€11,424,107
2018	€1,771,000	€11,972,000	€13,743,000
2019	€1,611,000	€12,678,250	€14,449,250
2020	€1,601,000	€14,948,195	€16,549,195
2021	€1,611,000	€16,795,195	€18,406,195
2022	€1,611,000	€16,981,877	€18,592,877
2023	€1,611,000	€17,767,860	€19,378,860
2024	€1,851,000	€17,795,040	€19,646,040
		Total Over Period	€347,038,410

Table 5 hereunder summarises the detail of the 2024 DTTS grant allocation and compares it with the 2023 allocations:-

Table 5:

Category	2023	2024	% Difference
Restoration Improvement Grant	€9,545,000	€9,705,000	+ 1.7%
Restoration Maintenance Grant	€1,393,500	€1,327,000	-4.8%
Supplementary Maintenance Grant	€1,095,000	€1,161,500	+ 5.9%
Discretionary Grant	€2,633,000	€2,619,000	-0.5%
Bridge Rehabilitation Grant	€321,000	€360,000	+ 12.1%
Specific Improvement Grant		€225,000	+ 100%
Safety Improvements works	€361,500	€353,500	-2.2%
Training Grant	€66,500	€66,500	, <del>-</del> .
Speed Limits (Housing Area Signage)	€6,260	€11,940	+ 90.7%
Speed Limits (Rural Speed Limit Signage)	€0	€6,900	+ 100%
Cycle Sign	€33,000	€0	-100%
Former National roads	€581,000	€400,000	-31.2%
Climate Adaptation & Resilience Works	€515,000	€506,600	-1.6%
PSCI Surveys	€25,000	€25,000	
Drainage works	€652,000	€587,000	-9.9%
CIR Scheme	€440,100	€440,100	₩H
Strategic Regional & Local Roads	€100,000	€0	-100%
TOTALS	€17,767,860	€17,795,040	

#### 4.2 Restoration Improvement and Restoration Maintenance

Restoration Grants continue to provide the main focus of the regional and local roads programme. The Improvement Grant allocation will be largely based on the 3-year works programme submitted by local authorities to the DTTAS in 2021. Flexibility is afforded to local authorities to re-prioritise improvement schemes and these are agreed at Municipal District level.

To note local authorities can no longer transfer up to 19% of Restoration Improvement grant allocations to the more maintenance related Discretionary grant category. This reduces the council's capacity to undertake important improvements works such as the upgrade of footpaths.

The Restoration Maintenance and new supplementary maintenance grant provides funds for surface dressing works (tar and chips) which provides for a restoration of skid resistance, and resealing of the road surface thereby preventing the ingress of water to the foundation layers.

# 4.3 Local and Regional Roads Maintenance

€1,664,000

Local and Regional Roads Maintenance is funded from the Council's own resources. The allocation is in line with previous years and is very essential funding for the daily repairs of roads and footpaths.

# 4.4 Bridge Rehabilitation Works Grant

€360,000

Bridge Rehabilitation works, following on from Principal Inspections of the Council's Bridge Stock in recent years, 12 no bridges have been identified for works in 2024. A full list of the bridges is available in the DTTAS circular in appendix II at the back of the report.

#### 4.5 Low Cost Safety Improvement Grants

€353,500

This Grant is targeted at the introduction of low cost safety measures on sections of the road network which, it is deemed, present hazards for road users. The total grant available in 2024 is €353,500 for 16 no schemes. A full list of the schemes is available in the DTTAS circular in appendix II at the back of the report.

#### 4.6 Community Involvement Scheme (CIS)

€440.100

This Scheme is targeted at the Local Tertiary Road Network (cul-de-sac) on which there are small volumes of traffic and where traffic is largely associated with local residences and local businesses. Each Municipal district will have a priority list for consideration.

# 4.7 Local Improvement Schemes

An allocation for Local Improvement Schemes for 2024 has not been received to date. This grant scheme facilitates the completion of works on non-public accommodation roads and on private lanes. The principles of the Scheme are

similar to the Community Involvement in Roadworks Scheme. However, the applicants have a lower % contribution to make.

#### 4.8 Former National Road Rehabilitation

€400.000

This is a source of funding to upgrade sections of former National roads. One scheme has been approved for funding in 2024. This fund is very welcome as these roads still carry significant volumes of traffic and have substantial carriageway widths which lead to additional costs for overlay from the road restoration funding.

# 4.9 Climate Change Adaptation & Resilience Works

€506,600

The allocation in 2024 is to deal with the impact climate change is having on our regional and local road network. The main projects include but are not limited to the following:

- Preventative measures such as drainage works to mitigate road flooding
- Works at bridges to take account of increased hydraulic loads due to flash floods or other climatic events.

The total grant available in 2024 is €506,600 for 18 no. schemes. A full list of the schemes is available in the DTTAS circular in appendix II at the back of the report.

# 4.10 Drainage Works

€587,000

This scheme was introduced in 2018 for drainage measures. Significant benefits from this scheme have been seen already in protecting roads and vulnerable areas. The funding may be used for the alleviation of road drainage problems either through new works or remedial works.

#### 4.11 Flood Repairs and Flood Preventative Measures

The OPW has committed € 1bn to a 10 year programme for the implementation of 118 flood schemes nationally and €29m for Kilkenny for the following schemes

- Ballyhale
- Freshford
- Graiguenamanagh
- Inistioge
- Piltown
- Thomastown

Two Engineering staff are currently working on tranche 1 projects Graignamanagh and Ballyhale. The projects will be implemented over the next 10 years.

#### 5.0 PUBLIC LIGHTING

Kilkenny County Council retains responsibility for day to day maintenance and energy supply for in excess of 11,000 public lights. A sum of €962,285 has been set aside to fund the management of the public lighting network in 2024. This will cover the maintenance and payback of energy upgrade works over the last number of years.

#### 6.0 ROAD SAFETY

Road Safety plays a key role in our annual roadworks scheme. A road safe plan 2022 – 2030 was developed through the Road Safety Working Together Group and SPC2 – Transportation Policy/Mobility Management and Water Services Strategic Policy Committee, in 2023.

#### 7. CONCLUSIONS

- **7.1** Whilst the 2024 Roadworks Scheme largely concentrates on the maintenance of the road assets, there will also be significant enhancements to both National and Non-National Routes and to public realm in villages and towns.
- **7.2** The issue of Road Safety is a key component of any Roadworks Scheme. The Scheme elements agreed at Municipal District level play a key role in supporting the safety characteristics of the road network and complement and support the measures to be set out in the County Kilkenny Road Safety Plan.
- **7.3** The attached Roadworks Scheme distributes the funds available in the most effective manner possible, having regard to:
  - the current condition of the road network:
  - the priorities set out in the 3 year road restoration programme;
  - the conditions attached to various grant categories;
  - the approval by the Members at the recent Municipal District Meetings;
  - the requirements of road safety and Health and Safety at Work legislation.

I therefore recommend that the Council approve the Scheme.

2024 Allocations	11	í

#### 1. Introduction

#### 1.1 National Roads Allocations and the NDP

This preamble describes the matters considered for "The 2024 Grant Allocations to Local Authorities for National Roads, Active Travel and Greenways" (the "Allocations"). The Allocations are made by Transport Infrastructure (TII) having regard to the priorities set out in the National Development Plan 2021-2030 (the "NDP"), the objectives of the Climate Action Plan 2023, other national policies, and the terms and conditions set by the Minister for Transport (the "Minister") pursuant to the Roads Acts 1993 to 2015.

TII is focussed on delivering its statutory duty to secure a safe and efficient network of national roads having regard to the needs of all users. TII is also responsible for overseeing the delivery of a programme of national and regional greenways as Sanctioning Authority, pursuant to an agreement between the Minister and the Board of TII.

TII supplements Exchequer Grants through income received from public tolling on the M50 and through revenue share arrangements from PPP's.

The Minister has notified TII that the Exchequer Capital Allocation for national roads for 2024 will be €265.16 million for Asset Protection and Renewal. An Exchequer Current Allocation is being provided for national roads maintenance of €32.85 million. A separate Exchequer Capital Allocation is being provided for Greenways of €68 million for capital projects and €5m for asset renewal of existing Greenways.

The indicative Exchequer Capital Allocation for New Roads Improvements in 2024, notified by the Minister to TII, is approximately €146.64 million.

The amount of the Exchequer Capital Allocation for any given year of the NDP is a key factor in determining the timing of delivery and rate of progress of national roads and greenways programmes and projects.

#### 1.2 Statutory Arrangements for Allocations

Further to the general duty of TII to secure the provision of a safe and efficient network of national roads, Section 19 (2) of the Roads Act requires that TII shall, as far as possible, arrange that its functions (including prepare, or arrange for the preparation of, design for construction or improvement works or securing the carrying out of construction works) shall be performed on its behalf by the relevant road authority (i.e., the relevant Local Authority). Therefore, TII provides allocations to Local Authorities on an annual basis, so they can deliver on their road authority functions on behalf of TII in relation to national roads. If for any reason it is not possible to deliver on a particular project or for TII to approve the progression of a project, TII can, and does, reallocate part or all the relevant funding to other national roads and greenway programmes, projects, or operations, during the year in question.

# 1.3 Terms and Conditions Set by the Minister

Under section 24 of the Roads Act, the Minister sets terms and conditions in relation to grants from moneys provided by the Oireachtas towards national roads capital projects and current expenditure

of TII. The amounts of the 2024 Exchequer Capital and Current Grants for national roads, and conditions were issued to TII on 31st January and are summarised below.

The Exchequer Capital Allocation for Capital projects is based on the following prioritisation:

- 1. Maintenance of existing national roads assets, helping to keep them to a safe and robust standard;
- 2. Progression of projects currently under construction and those close to construction;
- 3. Progression of the major projects at pre-Approval Gate 2 in the Infrastructure Guidelines,
- 4. For projects further back in the development pipeline, i.e., pre-Approval Gate 1 in the Infrastructure Guidelines, the focus of the remaining funding should be on progressing bypasses and other projects that will contribute to supporting the National Planning Framework's national strategic outcome NSO 1: Compact Growth and achieving the objectives of Government's "Town Centre First" policy.

#### 1.3.1 New Roads

In relation to New Roads, the Exchequer Capital Grant of €146.64 million to be provided to TII for 2024 is subject to the condition that this funding is allocated toward those projects listed by the Minister in the Appendix to the grant allocations letter. These schemes as set out in this Appendix are listed below:

#### Construction and Closeout Commitments

N5 Ballaghaderreen to Scramoge

N8/N25 Dunkettle Interchange

**N69 Listowel Bypass** 

N59 Moycullen Bypass

N22 Ballyvourney to Macroom

N5 Westport to Turlough

#### Projects Proceeding to Construction

M28 Cork to Ringaskiddy

N21/69 Limerick to Foynes (Adare Bypass) - delivery of Adare Bypass as advance works for the main scheme

#### Projects Delayed by Judicial Review

N6 Galway City Ring Road

N52 Ardee Bypass

**Projects Approaching Planning Approval** 

N2 Slane Bypass and Public Realm

Donegal TEN-T Improvement

#### **Bypasses**

N3 Virginia Bypass

N4 Mullingar to Longford

N4 Carrick-on-Shannon to Dromod

N21 Newcastle West Relief Road

N21 Abbeyfeale Relief Road

N24 Cahir to Limerick Junction (including Tipperary Bypass)

N25 Midleton to Youghal

**N58 Foxford Bypass** 

N72/N73 Mallow Relief Road

N17 Knock to Collooney - progress Tobercurry and Charlestown Bypass elements of scheme.

#### **Accessibility**

N2 Clontibret to the Border

N11/25 Oilgate to Rosslare

N/M20 Cork to Limerick

#### 1.4 Protection and Renewal

#### 1.4.1 Capital Protection and Renewal

The Exchequer Grant for Capital Protection and Renewal has been increased in 2024 from €254 million in 2023 to €265.16 million in 2024. The section 24 letter highlighted that Safety is the priority for the Government and accordingly funding for Protection and Renewal of the National Roads network is to be prioritised. The grants provided reflect Government and TII commitment to the delivery of safety improvements on the National Network

#### 1.4.2 Current Protection and Renewal

The allocation for Current Spending in 2024 has been reduced by €2.0 million from €34.85 million to €32.85 million and consequently it has been necessary to introduce targeted reductions while recognising that inflationary pressures have further reduced the ability of individual Local Authorities to deliver the necessary services.

The allocations for General Operation and Maintenance have been left at 2023 levels resulting in it being it necessary to reduce Winter Maintenance by € 1.0 million from €5,300,000 to €4,300,000 with a pro-rata reduction in each authority's allocation. TII will engage with Local Authorities during April 2024 to verify the emerging expenditure trend and implications for delivery of Winter Maintenance for the period October to December 2024.

In additions the amount for projects for which funds are allocated by means of the Geo-App has been reduced by €0.5 million from €5,000,863 to €4,500,863. TII will endeavour to allocate these reduced funds on an equitable basis across the entire network.

The balancing reduction of €0.5 million has been achieved by reducing expenditure on Bridge Maintenance which is procured directly by TII.

# 1.5 Key Points

Key points to note from this preamble are:

- The Exchequer allocations for national roads and greenways are confined by the funding voted by the Oireachtas and distributed by the Department of Transport (DoT).
- The funding provided to TII is for the purpose of fulfilling TII's statutory duties and delivering Government policy in connection with national roads and greenways.
- The allocations are an indication of the progress that TII believes is possible on each national roads or greenways project, programme, or operation during 2024, and subject to the terms and conditions specified by the Minister in relation to the Exchequer Capital Allocations. The allocations will be used to reimburse the relevant Local Authorities for costs incurred in accordance with national roads and greenways chargeability requirements.
- If the progression of any national roads or greenways project, programme or operation is impeded or priorities change, the funding will be redistributed by TII, in accordance with its statutory remit, to other national roads or greenways projects, programmes, or operations.

### 1.6 Allocation Terms and Conditions

- The drawdown of funding by the LA (Local Authority) on PRS will be taken as acceptance of these terms and conditions.
- The allocations are annual contributions towards the costs incurred by the LA in relation to the project for which the allocation is provided (each allocation is identified by a unique PRS Code).
- The LA may claim for expenditure up to the amount of the allocations assigned in PRS.
   Expenditure claims must meet the eligibility criteria set out in TII's guidance document "Chargeability of Expenditure to National Road and Greenways Grants" and should only be used for the purposes for which the allocation is provided by TII.
- The allocations provided by TII will only be available to the LA to claim during the period 22<sup>nd</sup> February, 2024, to the last pay run in December 2024.
- Any portion of the allocation which LA's will not be availing of or is not claimed via PRS in the
  period specified above may be withdrawn or reallocated by TII to another project within the
  LA or another LA.
- The funding is being made available for the improvement and maintenance of national roads and Greenways ('the projects') and may only be used for the specific project / purpose for which the grant is allocated. Where funding is availed of for national road projects, these

should be developed and implemented in accordance with TII guidelines, standards and procedures.

- In procuring services for the purposes of the project, the LA shall, where applicable, comply
  with Irish and European public procurement law and national public procurement guidelines.
- An appropriate audit trail shall be maintained between expenditure claimed on the PRS and the LA's financial management system. Expenditure charged to TII allocations must be clearly identifiable in the LA's accounting system (i.e., separate job codes set up for each PRS allocation) and supported by appropriate documentation.
- Where expenditure is claimed on PRS the LA should ensure that amounts claimed are not subject to any other claims for reimbursement from any other funding body (except in cases of joint-funding arrangements).
- Documentation to support expenditure claimed shall be retained in line with the LA's internal document retention policy and shall be made available for review by TII (when requested).
- Each claim submitted on PRS must be electronically certified by the Finance Officer (as designated in the PRS system for each LA).
- Circular 13/2014 "Management and Accountability for Grants from Exchequer Funds" issued
  by Department of Public Expenditure and Reform imposes certain obligations on grantees of
  Exchequer funding. It is a condition of TII funding that the requirements of Circular 13/2014
  are fully complied with. In accordance with Circular 13/2014, grants received by grantees (i.e.,
  local authorities) may be subject to audit by the bodies providing the funding. In this regard
  TII reserves the right to audit any project implemented by the local authority for which grants
  have been paid by TII.
- Should an audit be undertaken, and any expenditure be identified as ineligible, the LA shall refund TII the amount deemed to be ineligible.
- Should any project for which TII is providing grant funding be subject to a co-funding arrangement through the LA, the LA is required ensure that there will be no duplication of funding for the same activity / project.
- Should grants provided by TII be used by the LA to acquire assets, these shall not be disposed
  of without the prior written approval of TII.
- Should any errors (overclaims) be identified through audits / checking undertaken by the LA
  on claims made on PRS, the LA shall notify TII of the error identified and refund the amount if
  requested by TII.

	National Roads

# An Roinn Iompair Department of Transport

CIRCULAR RW 02/2024

#### 2024 REGIONAL AND LOCAL ROAD GRANT ALLOCATIONS

Dear Director of Service,

I am directed by the Minister for Transport to enclose details of the 2024 grant allocations to your authority in respect of the maintenance and improvement of regional and local roads. The total grant allocation in 2024 under this Circular is €658 million. This Circular contains the following Appendices:

Appendix 1: Amounts available nationally under the various grant headings;

Appendix 2: Individual local authority allocations and scheme details;

Appendix 3: Completion dates for works;

Appendix 4: Assignment of Inspectors to each Council;

Appendix 5: 2024 Discretionary Grant Programme (see attached excel sheet); and

Appendix 6: 2024 Drainage Grant Programme (see attached excel sheet).

The Memorandum on Grants for Regional and Local Roads defines the conditions governing the allocation and payment of monies to local authorities under the various grant categories, as well as conditions on the chargeability of expenditure incurred. Local authorities in receipt of Regional and Local Road Grants must adhere to the conditions contained within the Memorandum.

The conditions applying to the payment of allocations under the various grant categories are set out in the Memorandum on Grants for Regional and Local Roads (RW01/2024).

In the context of the substantial Exchequer grant support being provided to local authorities, the Minister again wishes to emphasise to Councils the importance of road maintenance and improvement works which promote the safety of all road users, including cyclists and pedestrians. Measures, including appropriate road pavement edge treatment, maintenance of verges, embankments and cuttings, roadside drains together with repairs of road pavement

and associated footways and cycleways, can all contribute to road safety and are eligible for grant assistance.

Local authorities must ensure that all works undertaken on foot of State grants are completed in accordance with the applicable conditions by the various intermediate and completion dates set out in **Appendix 3**.

In addition, local authorities should vigorously pursue outstanding invoices from contractors during the year to ensure the timely claiming of grants in 2024. Local authorities should claim eligible payments as soon as possible and should not wait until the end of the year to do so. Progress on all grant-aided works will be reviewed regularly and grants will be re-allocated where a shortfall in expenditure is expected. Such adjustments may entail the distribution of the sum involved to another local authority.

<u>Output returns</u> for individual grant programmes will be required after the final grant payments for the year are made.

#### 1. Grant Allocation Programmes:

#### 1.1 Restoration Improvement Programme

The Restoration Improvement (RI) Programme continues to be a priority of the regional and local roads programme. An overall amount of €303 million will be provided under the 2024 RI Grant.

Circular RW 11/2021 requested Councils to submit a multi-year RI programme for 2022, 2023 and 2024 based on a budget estimate of 100% of your Council's initial 2021 RI grant allocation. The Circular specified that the programme should be submitted on AMS. Based on the allocation under this Circular, Councils should now submit an updated RI programme for 2024 by the 14<sup>th</sup> March 2024 on AMS.

Should the Council wish to change its RI programme during the year it should advise the relevant Department Inspector by email and copy the email to RLR@transport.gov.ie.

#### 1.2 Restoration Maintenance Programme

The Restoration Maintenance (RM) Programme continues to be an important programme aimed at protecting road surfaces. Given continuing constraints in relation to current funding for the RM programme, the provision of a Supplementary Restoration Maintenance (SRM)

Grant using capital funding is being continued in 2024. An overall grant amount of €75 million will be provided for the surface dressing programme in 2024.

The Department wishes to emphasise that RM and SRM is to be treated by the Council as one Restoration Maintenance Surface Dressing programme with claims made against the <u>RM grant until that grant is fully expended</u>. Only then should Councils draw down funding from the SRM grant. In order to ensure compliance with this requirement SRM grant allocations will not be put on PRS initially.

RM and SRM grant funding may only be used for Surface Dressing works. If sealing works are required, other than surface dressing, then they should be included under the RI or Discretionary Grant programmes or funded through LA own resources.

This means that works such as slurry sealing, clause 942 material, wearing course macadam and HRA which are often used in urban areas may now be only carried out under the RI or Discretionary Grant programmes.

Councils should record their 2024 surface dressing works under the RM programme on MapRoad – Asset Management System (AMS) by the **14**<sup>th</sup> **March 2024**.

#### 1.3 Discretionary Grant Programme

Discretionary Grants (DG) amounting to *c*.€83 million will be available to meet the cost of road maintenance and improvement works selected by local authorities pursuant to relevant Departmental Circulars.

The cost of salt used by local authorities in the winter period of 2022/2023 has been deducted from each authority's DG. Local authorities can use DG monies towards staff or plant costs associated with salting operations or for the purchase of salt. In certain cases, a contribution for the conversion to brine plants may be chargeable to DG but this should be discussed and agreed with the Department inspector in advance.

The increased frequency of storm damage in recent years has highlighted the need for local authorities to set aside a contingency amount from the overall resource available to deal with severe weather events and damage to the network as they arise. A minimum amount of 10% of DG is recommended as part of this contingency to help supplement Local Authorities Own Resources.

Councils are required to submit details of their proposed 2024 DG Programme on the excel sheet attached in **Appendix 5**. This return should be submitted to the Department at RLR@transport.gov.ie by the **14**<sup>th</sup> **March 2024**.

#### 1.4 Community Involvement Scheme

Ring-fenced funding for the Community Involvement Scheme (CIS) was introduced in 2018. Since then, funding has been allocated for 2-year periods with a view to giving local authorities more flexibility in delivering this programme.

Following a further application process in 2023 the same approach is being taken for the current tranche of CIS funding with funding allocated for a two-year period covering 2024 and 2025. The allocation for your local authority for 2024 is set out in **Appendix 2**. Where the overall amount sought by a local authority exceeds the allocation, the local authority will have to prioritise the projects to be funded. The final programme should then be submitted on MapRoad.

It is important to note that grants allocated under other Departmental grant programmes cannot be used for the community contribution element within the CIS.

## 1.5 Drainage Grant

Grant funding of €18 million is being provided in 2024 under the drainage grant (DR) for drainage measures. The allocation for your local authority is set out in **Appendix 2**. The funding may be used for the alleviation of road drainage problems either through new works or remedial works.

The works which will be undertaken should be set out in the form - Drainage 2024 - attached in **Appendix 6** and the completed form should be returned to the Department at RLR@transport.gov.ie by 14<sup>th</sup> March 2024.

The Guidelines for Road Drainage, which outline best practice in relation to road drainage, were revised and new Guidelines issued in 2022. Local authorities should refer to these Guidelines when planning and implementing drainage works. The Guidelines are available on <a href="https://www.rmo.ie">www.rmo.ie</a>

#### 1.6 Lower Cost Bridge Rehabilitation

Lower Cost Bridge Rehabilitation (BR) grant allocations will continue to be provided in 2024 to fund bridge rehabilitation works and your authority's allocation is included in **Appendix 2**. While it is not necessary for local authorities to seek approval to transfer funding among the

approved schemes, the Department should be notified of such transfers. Where local authorities wish to introduce a new scheme, for example, if implementation of an approved scheme is delayed, then approval should be sought from the Department.

#### 1.7 Lower Cost Safety Scheme

The Lower Cost Safety (LCS) scheme remains in place for 2024 and your authority's allocation is set out in **Appendix 2**. While it is not necessary for local authorities to seek approval to transfer funding among the approved schemes, the Department should be notified of such transfers. Where local authorities wish to introduce a new scheme, for example, if implementation of an approved scheme is delayed, then approval should be sought from the Department.

#### 1.8 Former National Road Rehabilitation Grant

In light of the 2018 regional road pavement condition survey findings, the Department introduced a Former National Road Rehabilitation Grant (FN) grant in 2019 to assist local authorities with the rehabilitation of sections of former national roads with a poor condition rating and this grant is being continued this year.

Following consideration of applications received from local authorities, grants allocations under this heading are included in **Appendix 2**.

### 1.9 Climate Change Adaptation & Resilience

As the impact of climate change on the road network is becoming more apparent, the Department introduced a Climate Change Adaptation & Resilience (CCAR) Grant. Allocations under this heading in 2024 are in **Appendix 2**.

Where any changes are proposed to the approved CCAR projects, local authorities are required to liaise with the relevant Department Inspector.

#### 1.10 Rural Limit Speed Sign

With a view to supporting the roll out of the Rural Speed Limit sign as provided for in the Guidelines for Setting and Managing Speed Limits, local authorities were able to apply for funding this year for the deployment of the sign and supplementary plate.

Note: Local authorities are encouraged to complete implementation of these signs this year as this dedicated funding programme will be closing.

Where applicable, grant allocations under this grant programme are set out in Appendix 2.

#### 1.11 Speed Limit Signage in Housing Areas

Local authorities were requested to submit details of proposed expenditure in 2024 on signage related to implementing 30km/h speed limit/slow zone signage programme in housing areas. Where applicable, grant allocations under this grant programme are set out in Appendix 2.

Note: Local authorities are encouraged to complete implementation of these signs in accordance with their approved speed limit bye laws as soon as possible.

## 1.12 Cycle "Safe Passing" Signs

Following the inclusion in the updated Traffic Signs Manual of a new cycle warning sign which advises motorists of the need to leave adequate space when overtaking cyclists, Circular RST 04/2019 issued to all local authorities on the 19th December 2019.

This Circular included an Advice Note to assist local authorities in determining where the provision of such signs would be most effective. Where applicable, grant allocations for these cycle signs are set out in Appendix 2.

#### 1.13 PSCI Surveys

A grant to assist local authorities in meeting the network survey requirements set out in Circular RW3/2018 and the Pavement Surface Condition Index (PSCI) Survey Grant is again being made available this year. Drawdown of this grant is subject to the receipt of a RMO certificate regarding the amount of the required 2024 PSCI survey completed. For this reason, the PSCI allocation included in Appendix 2 will not be put up on the PRS until later in the year.

#### 1.14 Local Improvement Scheme

In the period 2013 to 2018 local authorities were permitted to use a proportion of their initial DG towards local improvement schemes (LIS) should they wish to do so.

The Department for Rural and Community Development (DRCD) introduced ring-fenced funding for LIS in 2017 and is continuing to operate this scheme. The option of allocating funding to LIS from the DG will not, therefore, apply in 2024.

#### 2. MapRoad - Asset Management System (AMS)

All Local Authorities are reminded that they must upload and maintain full records of all pavement projects on the AMS. All projects for RI and RM/SRM will continue to be submitted and managed through AMS. Any pavement interventions across other grant categories

(including those funded by any Government Department or Agency) or using own resources must also be uploaded to the AMS.

As you are aware, the Department has now moved from a paper/email-based Form A / Form B return to an online system through the AMS. It is, therefore, essential that each LA maintains records of all pavement works on the AMS system.

Section 10 (5) of the Roads Act 1993 requires that each Road Authority maintain a schedule and map of all public roads for which it has responsibility. Each Local Authority is required to keep this schedule up to date on AMS. The payment of grants is linked to this requirement.

#### 3. Inflation/Supply Chain Delay Co-operation Framework

Circular RW13/2022 and updated by circular RW 14/2023 refers to the circumstances pertaining to the charging of Ex-gratia payments relating to pavement works funded under the RI or FN programmes. Any outstanding payment requests should be discussed directly with your Department Inspector.

Local Authorities should note that the Supply Chain Delay Framework Agreement was published by the Office of Government on 17 July 2023 for use with form of Public Works contracts PW-CF1 to PW-CF5 and replaces the Inflation/Supply Chain Delay Co-operation Framework.

#### 4. Own Resources

The commitment of local authorities to contribute significantly from their own resources towards the cost of improving and maintaining the regional and local roads network is essential. It is vital that local authorities at least maintain and increase, where possible, monies available for the maintenance and strengthening of road pavements.

It may be necessary for local authorities to postpone major widening and realignment schemes to achieve this objective, <u>but the first priority must be the satisfactory protection of the existing road network.</u>

It is vital that full consideration is given to utilising the Local Property Tax to boost own resources expenditure on regional and local road maintenance and renewal.

### 5. Contingency Provision & Severe Weather

Local authorities are advised that the Department is not setting aside contingency monies to address possible severe weather events and that in line with established practice, a contingency provision should be reserved from the overall resources available to each authority for regional and local roads to deal with damage caused by severe weather conditions, including flooding.

### 6. Claims for payment of Grants

Local authorities should note that claims should continue to be made through Transport Infrastructure Ireland's (TII) Project Reporting System (PRS). These claims will be processed by the Department of Transport. Local authorities should continue to attach general ledger expenditure reports making up the claim on the PRS.

As part of the claim approval process each local authority must nominate an official to verify that a claim is in accordance with the requirements for chargeability of expenditure and that all amounts have been checked in full and are in order for payment. The Department would like to emphasise that it considers that this verification is a key part of the financial control system and expects this role to be executed with due diligence and care.

The Department also wants to emphasise that local authorities are required to <u>submit claims</u> on <u>PRS before 12.30pm on the relevant date</u> identified in the pay run schedule and if the claim is not submitted by that time, the Department will not process the claim until the following month. Grant allocations only apply for the year in which they are allocated and cannot be carried forward. Any element of a grant allocation which is not claimed and approved for payment under the final pay run of the year is, therefore, lost.

#### 7. Expenditure Review Requirements

The accuracy of all figures submitted by local authorities, for example, grant claims, output data, details of own resources expenditure etc, is of the utmost importance. These figures are used to inform outputs and value for money, required future funding and inform the democratic process. As part of our on-going review of the regional and local roads grant system, it may be necessary from time to time to introduce new requirements to further enhance the control systems in operation between local authorities and this Department.

You are reminded that this Department can conduct, at any time, either a full onsite or a deskcheck review on regional and local roads expenditure claimed on PRS.

#### 8. Sign Clutter

The Department wishes to draw local authorities' attention to the requirements of the Traffic Signs Manual in respect of regulatory signs. While these requirements reflect the necessity to inform motorists that particular restrictions or prohibitions exist, local authorities should ensure that signage is installed without creating a hazard and that reasonable safe access and accessibility is provided for all. In this regard section 1.3 of Chapter 1 of the Traffic Signs

Manual (<u>www.trafficsigns.ie</u>) provides extensive detail on the 'Siting' and 'Placement' of signs and, in particular, 1.3.43 sets out measures which should be considered to avoid street clutter.

## 9. Weather Warnings

As part of the 2024 allocations Local authorities are again reminded of the need to ensure that the necessary arrangements are in place with Met Eireann to receive weather warnings. In addition, in times of above average rainfall, local authorities should ensure that gullies and drains in high-risk areas are kept clear, to reduce the risk of flooding.

Yours sincerely,

Faye Carroll

Regional & Local Roads Division

Lage Coreol

15 February 2024

c.c. Each Chief Executive, Director of Services Roads and Transportation, Senior Engineer Roads

## Grants available in 2024 under Main Grant Headings

Grants being allocated to local authorities under this Circular comprise the following:

Category	Amount € m
Restoration Improvement (RI)	303
Restoration Maintenance (RM)	40
Supplementary Restoration Maintenance (SRM)	35
Discretionary Grant (DG)	83
Drainage Grant	18
Community Involvement Scheme (CIS)	12.9

Total			€400,000	

## Intermediate and Final Completion Dates for Regional and Local Road Works

Operation	Intermediate Completion Dates	Final Completion Date
Surface Dressing (SD)	1/3 by end June	31 August
	2/3 by end July	
	3/3 by end August	
Road Reconstruction (RR) and	1/3 by end May	30 September
Surface Restoration (SR)	2/3 by end July	
	3/3 by end September	
All works other than SD, RR and SR (except schemes which of their	1/3 by end June	31 October
nature must continue into the	2/3 by end August	
following year)	3/3 by end of October	

#### Notes:

- Road Reconstruction involves the regulation or reconstruction of the existing road pavement and overlaying with bound or unbound materials with or without surface dressing and the provision of drainage, where necessary.
- 2. Where work is completed by the various dates, the cost incurred should be reflected in the following months expenditure return.
