Cllr Lyons raised the issue of recent road traffic accidents on the N76 from Callan to Kilkenny saying the road needed to be reviewed, referring in particular to the village of Cuffesgrange and the Callan by-pass, saying increased signage at these locations would be helpful and noting the absence of a hard shoulder after Ballymack.

Cllr Doran agreed, saying there were excessive right-hand turns off the Callan by-pass.

Mr D Murphy said national roads such as the N76 are under constant review and said HD15 sites, roads which are the location of a number of accidents, have accident information sent to the Road Design section and to TII for review, with these sites eligible for safety works funding. He noted that the accidents which occurred were in different locations, and said the Callan by-pass is currently the subject of design for works scheduled during 2023.

Members observed that speeding is a huge problem on all roads and urged road users to slow down.

This concluded the business of the meeting at 16.43pm
