5(21) John Coonan

“ With the roll out of the vaccination programme and the number of cases of the virus reducing we can look forward to the phased re-opening of society. In order to put our best foot forward I suggest that property/business owners within the city centre be contacted with a view to encouraging them to carry out works to improve the appearance of their properties including painting and maintenance/repair of gutters and downpipes etc”.

6(21) Eugene McGuinness

“That Kilkenny County Municipal District would ask the NTA to alter an existing bus route or establish a new route which would accommodate residents of the Dublin Road/Shandon Park/Altamount Park area of the City. Residents in any of these areas, particularly the elderly or those with disabilities, have no access to public transport as crossing a busy ring road is not an option. With the real possibility of lands in the area being developed in the near future, including that of St. Canices Hospital, it is imperative that the necessary public transport infrastructure be installed without delay to cater for the existing and future needs of the area.
