

The key message of this campaign is; If you smoke or vape, consider your activity when around children and young people. Listen to the ask from our young people; they are saying “Not Around Us”.

The Carlow and Kilkenny Not Around Us Campaign was launched in 2025. We are initially focusing on Community and Voluntary organisations and targeted public spaces.

Contact your local Healthy Ireland Coordinator via email to become a Not Around Us Supporter

Proud Partners of Carlow and Kilkenny “Not Around Us” Campaign
This Not Around US Campaign is supported by:

COINNIGH UAINN É NOT AROUND US

Carlow and Kilkenny “Not Around Us” Campaign

WHAT’S IT ALL ABOUT?

The Not Around Us Campaign is an ask from young people to consider your activity in outdoor spaces, used by children and young people, so that our young people can experience smoke and vape free spaces and environments. The aim of the campaign is to de-normalise smoking and vaping around children and young people. "Not Around Us" is another step towards a Tobacco & Vape Free Carlow and Kilkenny.

WHAT CAN CARLOW AND KILKENNY'S "NOT AROUND US" CAMPAIGN ACHIEVE?

Helping to protect children and young people from second-hand smoke exposure

Contributing to the de-normalisation of smoking and vaping for children and young people

Raising awareness and support amongst all stakeholders in Carlow and Kilkenny on tobacco/vape free Ireland and everyone playing a part in supporting it

Signposting to HSE Quit services

Are you a Community and Voluntary Organisation?
If yes, you can sign up to be a Not Around Us Supporter.

Here are the simple steps to take before you register and pledge to the campaign.

1. Consult with the young people who use the facility/service to discuss the 'Not Around Us' campaign and to determine if the 'Not Around Us' message is something they would like your organisation to adopt. We have a consultation toolkit to help you with this, suitable for all age groups. (7-18 years)

2. If the young people are in agreement with your organisation supporting the campaign, then you should review your own policies to ensure they include the key aims of the campaign - "helping to protect children and young people from second-hand smoke exposure & contributing to the de-normalisation of smoking for children and young people".

3. Before sign up you should also discuss and agree within your organisation that you are committing to supporting and promoting the 'Not Around Us' activity to your own stakeholders and within your organisation. Upon completion of these steps, register and sign the campaign pledge.

You will then receive a Not Around Us Supporter pack which included a Supporter Charter, Window Stickers and Outdoor Signage.
